Graymont announces launch of community-focused Carbon Reduction Fund and invites applications for 2023 initiatives

We are proud to announce the launch of the Graymont Carbon Reduction Fund, an innovative, grass-roots initiative designed to support the development of carbon-reduction initiatives in the communities across the globe that we call home.

The fund's role is to support projects focused on:

- Protecting the environment by the responsible use of resources
- Reducing our carbon footprint through increased energy efficiency
- Developing and maintaining natural, biological 'carbon sinks' such as agricultural land, forests or peat bogs that act as a natural offset for carbon

If you have a project idea that relates to any of these topics, the GCRF is looking for you!

Graymont's mission is contributing to a decarbonized world by providing essential lime and limestone solutions.

For additional information, please contact Lara Price email: lprice@graymont.com mobile: 2047680094
