Getting Run Down

Getting worn out and run down robs you of receiving what you need from life.

Our natural state of being is vibrant, happy to be alive. Yet, there can be times when we feel run down and worn out. This does not mean that we are lazy or unfit for the tasks in our lives; it means that we need to recharge our batteries and find a way of keeping them charged. Vitamins and extra rest can be very helpful in restoring our physical bodies. And if we are willing to delve deeper, we may discover that there is an underlying cause for our exhaustion.

Whenever you are feeling run down, take an honest look at how you have been thinking, feeling and acting. You will likely find a belief, behavior pattern or even a relationship that is out of alignment with who you really are. Perhaps you believe you have to be perfect at everything or you have been bending over backwards to get people to like you. Maybe you are dealing with mild depression or simply have too much on your plate right now. There may also be people or situations in your life which are draining your energy. Once you get clear on the root cause, you can weed it out and better direct your flow of energy in the future.

In time, you might notice that the reasons you feel run down have less to do with how much you are doing and more to do with the fact that in your heart, you would rather be doing something else entirely. From now on, try and listen to what your heart really wants. It may take meditation, or just a moment of silent tuning in to gain the clarity you need, but it is well worth the effort. When you know what you truly want to do, and honor that in all situations, you will find that getting run down is a thing of the past.

My dad shared a trick with me! To deter his perfectly good extension cords from being stolen when camping, he wraps electrical tape in various spots so they look like they are older and have been mended. Apparently folks like to steal good extension cords....not beat up extension cords. Enjoy!

Christmas Goodies!

Sunburst Lemon Bars

Base:

- 2 cups all-purpose flour
- ½ cup powdered sugar
- 1 cup butter or margarine, softened

Filling:

- 4 eggs
- 2 cups granulated sugar
- ¼ cup all-purpose flour
- ¼ teaspoon baking powder
- ¼ cup lemon juice

Glaze:

- 1 cup powdered sugar
- 2 to 3 tablespoons lemon juice

Heat oven to 350°F. In large bowl with electric mixer, beat base ingredients on low speed until crumbly. Press mixture evenly in bottom of ungreased 13x9-inch pan. Bake 20 to 30 minutes or until light golden brown.

Meanwhile, in large bowl with wire whisk, lightly beat eggs. Beat in remaining filling ingredients except lemon juice until well blended. Beat in 1/4 cup lemon juice.

Remove partially baked base from oven. Pour filling evenly over warm base. Return to oven; bake 25 to 30 minutes longer or until top is light golden brown. Cool completely, about 1 hour.

In small bowl, mix 1 cup powdered sugar and enough lemon juice for desired spreading consistency until smooth. Spread glaze over cooled bars. Cut into bars.

Chocolate Star Ginger Snaps

- 1 cup firmly packed brown sugar
- ¼ cup shortening
- ¼ cup molasses
- 1 egg
- 2 ¾ cups all-purpose flour
- 1 teaspoon baking soda
- 1 teaspoon ginger
- 1 teaspoon cinnamon
- ¼ teaspoon cloves
- ¼ cup sugar
- 48 chocolate star candies

Heat oven to 375°F. In large bowl, combine brown sugar, shortening and molasses; beat at medium speed until smooth. Add egg; beat well. Add flour, baking soda, ginger, cinnamon and cloves; beat until well mixed. Shape dough into 1-inch balls; roll in sugar. Place 2 inches apart on ungreased cookie sheets.

Bake at 375°F. for 7 to 9 minutes or until tops are cracked and edges are set. Immediately press 1 candy in center of each cookie. Cool 1 minute. Remove from cookie sheets; place on wire racks. Cool about 3 hours or until candy is set before storing.

"I discovered what's causing your backaches. This is an X-ray of your spine!"

Merry everything & a happy always.

Stay Warm!

With the cold temperatures throughout the province, please ensure that your animals are also staying warm. For horses and cattle, ensure they have fresh water, abundant feed and shelter from the wind. Animals that have to lick snow require extra energy to melt the snow and are much more prone to impactions, hypothermia and weight loss.

Animals living in extreme cold weather require much higher nutritional requirements during the winter months. For outdoor dogs and cats, ensure that they have a good insulated shelter and plenty of food and fresh water. Animals that are kept mostly indoors should be closely supervised when they are outdoors as they are not acclimatized to the cold. Indoor animals are much more prone to frostbite and hypothermia if left out for too long. **Please keep your animals safe and warm this winter!**
